

Blog Article: Requirements

Due Date:
08.05.2018 (end of day)

Blog Article

- Requirements (Due Date 08.05.):
- present the requirements for the selected course project:
 - requirements, user stories/use cases, estimated time
 - at least one use case diagram must be contained (think of a respective scenario)
- answer the following question:
 - How did your team gather requirements?
 - How did your team analyze requirements?
 - How did your team specify requirements? How did you map requirements to user stories/use case?
- present examples for wrong assumptions:
 - How did your team identifies wrong assumptions?
